Sectors**

About us

Ethix Water Conditioner is revolutionizing the way homeowners, businesses and industry solve lime scale and hard water issues. Water softeners discharge brine and waste a lot of water, causing environmental concerns. Less than 2.59% of the water left on the earth is considered “Fresh” – and most of that is trapped in icecaps and glaciers.

Established in the year 2010, at Pune (Maharashtra, India), we “Ethix Water Conditioner” are recognized as the trustworthy manufacturer and supplier of a comprehensive assortment of Magnetic Water Conditioner under the brand name “Ethix Water Conditioner”. Ethix Water Conditioner is a concept based on Electromagnetic Technology that has been cited in the literature and investigated since the turn of the 19th Century.

The products are processed in compliance with the set international quality standards using German technology by our skilled team of professionals. It is a cost effective product to arrest scaling and hard water problems, in Residential Commercial, Industrial and Agriculture sector. We understand your concerns and we ensure you get the best outcome possible for your particular set of problems.

Our Mission

Our mission is to help solve hard water problems through eco-friendly products in homes, business, and industrial applications by providing sales, service and installation of household, Agriculture and industrial applications of ETHIX conditioners. Thus contributing to reduction of carbon footprint of homes and organizations in India, taking small but substantial steps towards contribution to greenhouse effect.

Our Vision

To resolve hard water problems faced by Homes, Business, Agriculture and Industry in India by providing highest quality products and after sales support.

Our Aim

Our main aim is to **SAVE WATER** for our future generation.
Improving Agriculture and lifestyle of the human kind.

Precept

Ethix Water Conditioner is a Compact machine State – Of – The - Art a 3 stage Electromagnetic descaling system that can be easily installed online of the existing pipelines either at your bungalow, building, agriculture, commercial or industrial purpose where there is water application.

Our products do not only provide solution to the scale formation, but by and large SAVES water which is the source of LIVING for the entire world.

Remember the entire world has only 2.59 percent of fresh water remaining. Can we contribute to a noble cause of SAVING the precious water?

SOFTENER v/s CONDITIONER

Salt- Based Water Softener	ETHIX Water Conditioner
Expensive to Purchase & Maintain	Affordable & One Time Investment
Discharges Chlorides into Waste Stream	Environmentally “Green” Product
Require Continuous Maintenance	Zero Maintenance
Require Lots of Floor Space	Requires Lesser Space
Require Salts & Chemicals	No Salt & Chemicals Required
Harmful for People on Salt Restricted Diets	Safe for People on Salt Restricted Diets
Needs Excess Water for Regeneration	Does not Require any Additional Water
Removes Healthy Minerals from Water	Preserves Healthy & Necessary Minerals
Makes Skin Feel Dry & Water Slippery	Makes Skin Feel Soft & Water Silkier
Difficult to Remove Soap Foam	Easy to Remove Soap Foam
5 - 10 year Lifespan	10 - 15 year Lifespan

SALIENT FEATURES

- **No Salt -**

Salt free alternative water conditioner saves water and won't pollute our precious water supply.

- **No Chemical -**

Sustainable and chemical-free water conditioner saves water from pollution and more precious water supply.

- **No Maintenance -**

Substantial savings on labour, salt and repairs associated with water softeners.

- **Fit & Forget -**
Our affordable, eco-friendly solution is efficient and provides best result. No longer need to repair again and again.
- **Eco-Friendly -**
Sustainable, salt and chemical-free water conditioner saves
- **Zero Maintenance -**
Substantial savings on labor, salt and repairs associated with water softeners
- **Make in India -**
Designed, engineered and MANUFACTURED in India
- **Low Space -**
Does not require a large space for installation

Benefits

Agricultural

- ✓ Our water conditioner prevents and eradicates hard water scale and decomposition on all water related equipments like Pivot Systems, drip lines, sprinklers, irrigation pumps and water lines.
- ✓ It clears standing and static water in your fields by breaking up compacted soil layers and improves infiltration.
- ✓ Water usage is condensed as much as 15% or more and pumping costs are reduced. Soil shapes are improved.
- ✓ Cost effective solution which reduces Fuel or Electrical costs by further reducing water usage.
- ✓ Improves pump effectiveness and efficiency by providing “better” water through piping system.

- **Steamers** :-

Your steamers will require little or no maintenance for scale build-up.

- **Dishwashers** :-

Lime scale build-up in the dishwasher lines and on the heating elements will be reduced.

- **Housekeeping** :-

Huge savings are realized in all phases of cleaning, including the bathrooms and kitchen areas, because there is less scale build-up in toilets, showers, nozzles & faucets. Reduced labour and savings in cleaning chemicals benefit your bottom line.

▪ Laundry :-

Ethix Water Conditioner controls scale deposits in steam ironing machines and washing machines. You may be able to reduce detergent use. Clothes and towels will feel softer, look brighter and last longer, making your clients feel more pampered. Greatly reduces lint formation in laundry room, a serious fire hazard.

▪ Ice Machines :-

Scale deposits can cause cubes to be cloudy as well as clogs in the water flow. Ethix Water Coordinator reduces filter clogs bio film & contaminants. Maintenance & downtime are also reduced & equipment lasts longer.

Residential

- Enhances Taste of Water.
- Conditioned water is good and harmless for skin and hair.
- Maintains a healthy Life style.
- Conditioned water forms good Foaming in Detergent and Soap
- Prohibits Fungus and Algae growth.
- Protects Water heaters from deterioration and forming scaling
- Conditioned water keeps bath tub, shower walls, toilet area clean.
- Stops Water spotting and scaling on utensils and sanitary wares
- Extends Life of RO Units.
- Helps in washing clothes clean and bright

- **Water Heater Tanks :-**

Water heater works more efficiently resulting in huge energy savings. Scale is controlled on heating coil and tank.

- **Chillers / Condensers / Air Handlers :-**

Controls lime scale deposits on Heat Exchangers, tubes and surfaces resulting in substantial energy savings.

▪ Cooling Towers :-

You will observe huge savings in maintenance, biocide chemicals, labour and water usage. Ethix Water Conditioner reduces scale build-up, bacteria, bio-film, corrosion and algae blooms. It will reduce makeup water and blow downs substantially, resulting in huge water savings. It will increase the life of the equipment and save on energy cost.

▪ Boilers :-

You will see huge savings in chemicals and maintenance costs. Ethix Water Conditioner reduces scale formation on boiler, fire tubes, condensation tanks, pumps, pipes, and valves. Our product lowers energy costs and increases equipment life.

ACTUAL RESULTS

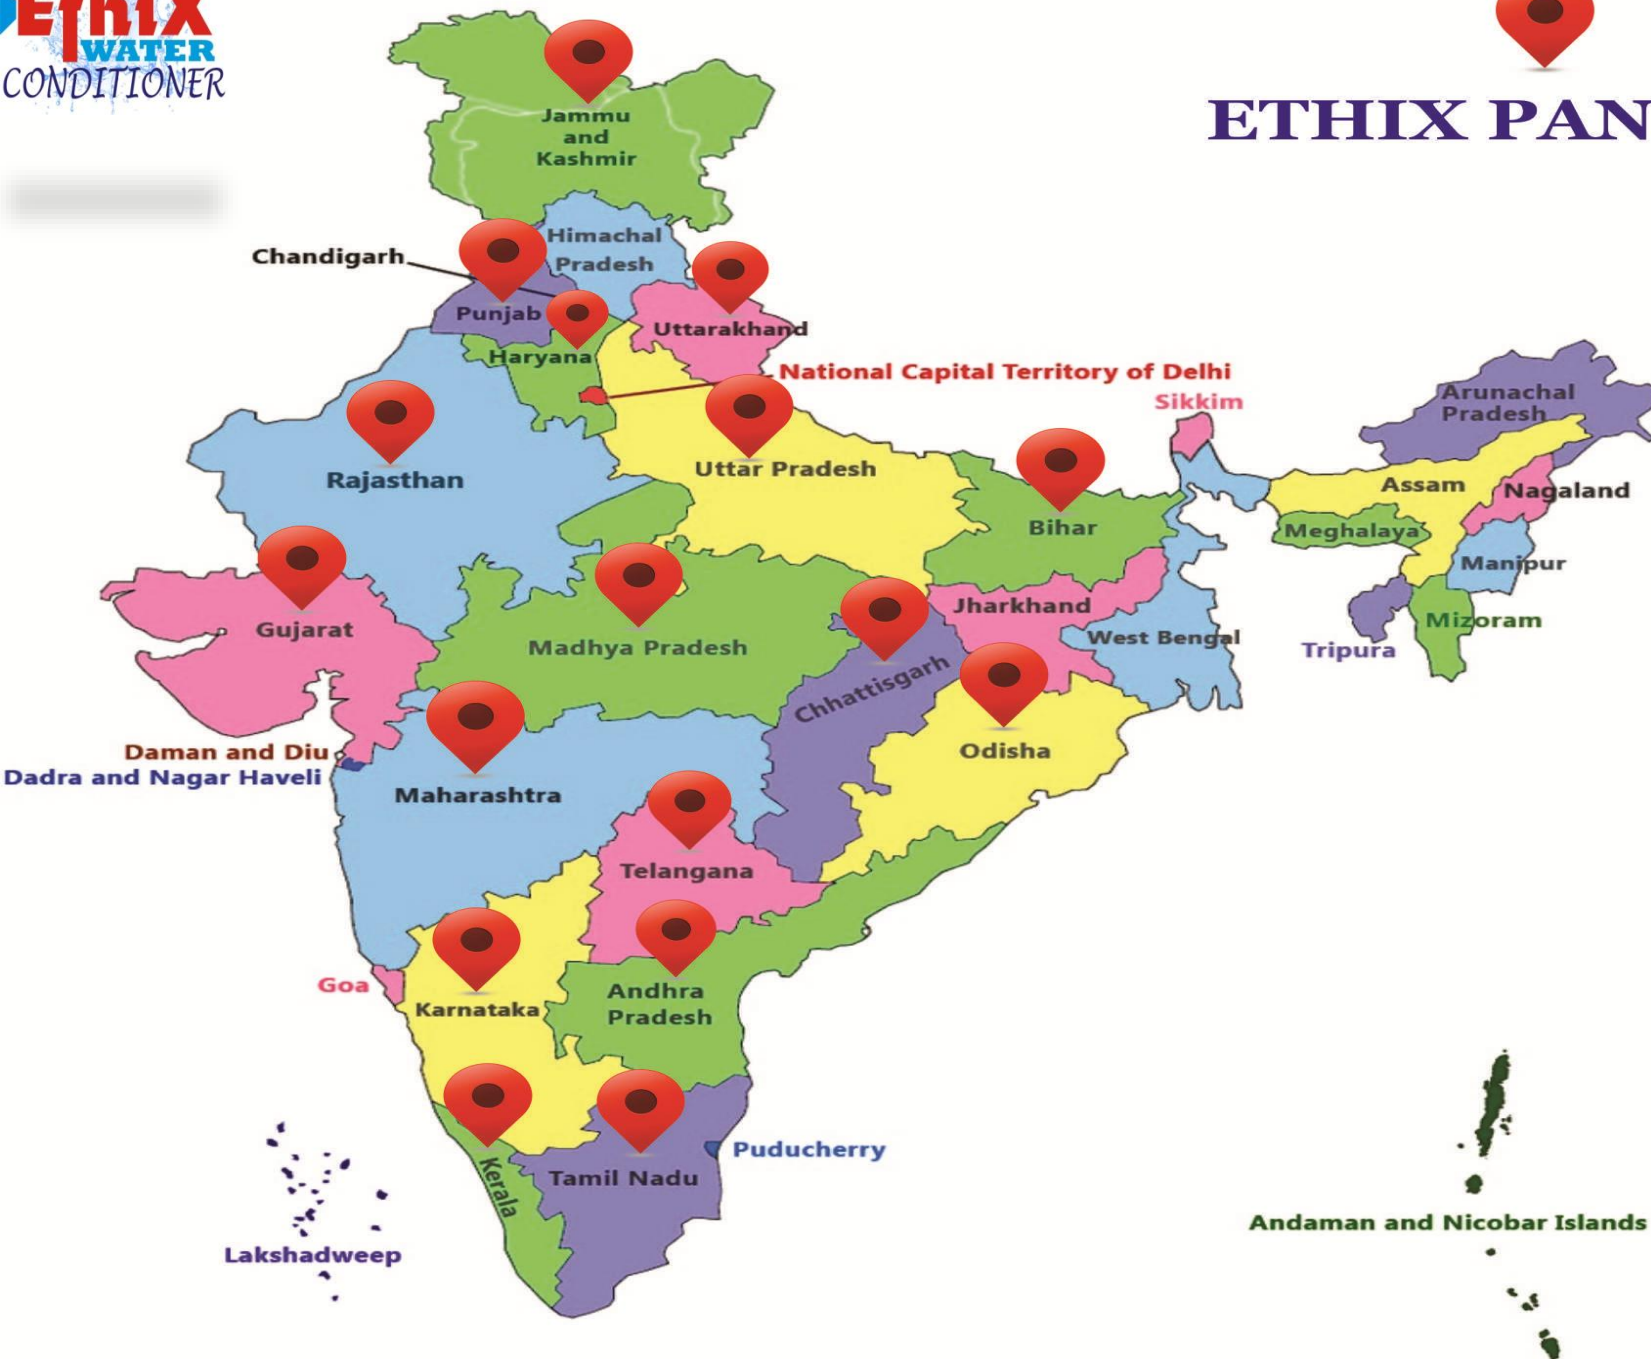

No blockages or impasse in drip irrigation units or pipeline system
